I'm on Win 10 OS. How do I repair or reinstall this game? A: For Windows 10 Open your file explorer (Win+E) and navigate to C:\Users\YourUserName\AppData\Local\ You'll find there two folders: Call Of Duty Call Of Duty Multiplayer Look inside these two folders. You'll find a file called BlackOps.exe Delete this file. Open the Store (Win+I) and search for the Call Of Duty App Open it. Click Install. Now close the Store and start Call Of Duty Done. But the fact that this is coming from the company that brought you the site formerly known as The Onion is pretty remarkable. The Onion has long maintained the thin veneer of being a real news site. But satire has always seemed to be its primary focus. Its reporting is more like the reporting of a parody news site, and its editorials aim to undermine the credibility of all other news sources. That's why it was so shocking when it announced it was shutting down the site shortly after the election. That wasn't enough to keep the "new" The Onion from continuing to poke fun at Donald Trump. But now Onion employees are coming forward to say that the articles are fake, designed to make the President look bad. If you read the full article, you'll see a disclaimer saying the items are being published "to make the president and his administration look silly." Several of the Onion's reporters took to Twitter to share stories that they said were told to them by the company's editors. Here's what one reporter said: My articles going forward have been approached to make the president and his administration look silly. — Ruthie Baby (@Ruthie_Baby) December 17,
