According to the company, AutoCAD is one of the best-selling PC applications. The success of AutoCAD and other products from the AutoCAD platform such as AutoCAD LT, AutoCAD Architecture, AutoCAD Civil 3D, AutoCAD Mechanical, and AutoCAD Electrical has made Autodesk the world's largest supplier of CAD applications, with a market share of 40.9% in 2013. (1) More than 200 million AutoCAD and AutoCAD LT licenses have been sold. (2) Most people who use Autodesk CAD are professional architects, engineers, landscape architects, draftsmen, or drafters. AutoCAD History and Background Autodesk started as a computer-aided design (CAD) company in 1982. After developing CAD software for a few years, Autodesk also began developing educational software for architectural and engineering colleges. This is when Autodesk first developed AutoCAD, also known as AutoPLAN. AutoCAD is a generic name which can refer to different versions of AutoCAD software. The first version of AutoCAD (AutoPLAN) was developed for the Apple II computer platform. In 1990, the first major update of AutoCAD was launched. This was the first version of AutoCAD available for the Microsoft Windows platform. A series of AutoCAD follow-up products was launched, such as AutoCAD for Windows NT. The final AutoCAD version for the Apple II platform was version 4.0, released in 1992. (3) There were 7 major versions of AutoCAD, starting from version 1.0, until version 2017. The first version of AutoCAD software for Windows was released in 1990. This release featured the first AutoCAD version for Windows. A series of follow-up releases of AutoCAD for Windows were released, such as AutoCAD 14.0, AutoCAD 16.0, AutoCAD 18.0, AutoCAD 19.0, AutoCAD 2010, AutoCAD 2012, AutoCAD 2014, and AutoCAD 2017. In 2013, Autodesk's revenues were \$1.53 billion, with \$671 million in net income. (4) As of 2018, AutoCAD has two desktop and one mobile product. (5) The second version of AutoCAD for iOS devices (AutoCAD LT iOS) was released

Pages Feb 4, 2014 Triple play: Books, interviews and contests I'm so excited to tell you about some exciting things I've been up to the past week! 1. I received a "Triple Play" set of novels and interviewed the author, Bill Lewis. For those who don't know, the Triple Play (or Triple Premier) Series is a line of libraries at the end of each year. Triple Play Series titles are chosen by the library, they can be any combination of fiction or nonfiction. Bill did a fantastic job and I thought I'd share the interview with you. Read it on the blog at www.billdavids.com. 2. I was selected to enter a contest run by the publishers for the series I've been giving away. The books in the Triple Play series are "originally written" for a "very young audience." That's correct. They were written for grades K-3. Which is why they're so damn good. It's not for lack of education in the kids, it's because of the great storytelling and sheer pleasure of being read to by the parent. It is a fun series. 3. I have a couple of copies of the triple play, series at the public library, so you can come and get yours. And finally, there will be a big giveaway when I'm finished giving away a lot of books. But don't worry, I'll share some of the swag with you first. I have to give a big thanks to Matt and the team at the Knuffle Beans Collective for their fantastic support of this giveaway. Without them, we couldn't have done this. **Please note the terms of the giveaway are in place to protect all parties involved. If you have any questions or concerns, please let me know. This giveaway is being done through Goodreads. If you want to find out more about this awesome group, click [here](#). Don't forget to let your friends know about the giveaway on Facebook, Twitter, and any other social media site you can think of. Thank you so much for participating, your support means so much to me. I can't wait to share these books with you. Good luck! What do you think about these three exciting things? How many of you have read the series and the books? How many of you are in the Tripp

What's New in the AutoCAD?

Shape Builder: The familiar Shape Builder tool is making a comeback and redesigned for AutoCAD 2023. Now it's even easier to add shapes with intuitive, multi-point editing. **Shape Manager:** Shape Manager has new methods for creating a new drawing, including inserting shapes from either the drawing that you are working on or the entire drawing set. (video: 2:20 min.) **Duplicate Symbol Link:** Automatically link two or more existing symbols by matching common features between them. This link automatically turns on as you duplicate a drawing, allows you to edit existing drawing properties, and is more robust than traditional links. (video: 2:55 min.) **Importing and viewing styles:** When importing and editing drawings, use the new settings to make importing styles and viewing styles easier. **Improved Model Browser:** With the Model Browser, find your models more easily. Features a new animated search, and the selected model is shown with expanded dimensions. (video: 1:45 min.) **Database Formats:** Importing and viewing drawing attributes and units from other databases with the new options. **Printing Improvements:** Save up to 30 percent of paper by utilizing multi-page printing options and specifying paper-based options. **Technical Enhancements:** Gain access to additional capabilities, such as memory and special printing options, through the command line. Also, view the current mode of a command, information about a command, the options for a command, and other user settings. **Rendering Improvements:** Improvements to the line style tools and rendering settings. **New and Updated Features:** Make study walls and grids, add unit grids and color palettes, and edit the home tab for easier navigation. **Drawing Roles:** Make it easy to add roles and to use multiple roles in the same drawing. **Change Tools:** Change the order of tools, including the order of links. **See Also:** The release notes for AutoCAD 2023 are available for download at the Help Center.
